The purpose of this meeting is to provide the community an opportunity to learn about the proposed project and allow an open discussion of any views and comments concerning the proposed improvements. A Question and Answer (Q&A) session will immediately follow the presentation.

The purpose of the project is to rehabilitate Bridge Nos. 00058 & 03563, which carries I-95 and the Exit 15 Off-Ramp to Route 7 Northbound, respectively. The rehabilitation will repair the concrete decks, steel superstructures, and concrete substructures. The Maintenance and Protection of Traffic includes overnight lane and shoulder closures and overnight closures of the north-bound on ramp at West Street with a local detour. Additional short-term closures of the sidewalk over Bridge No. 03563 and overnight closures of the Pedestrian Path will be required to complete the work.

Right-of-way impacts associated with the proposed project are not anticipated.

Construction is anticipated to begin Spring 2027 based on the availability of funding, acquisition of rights of way, and approval of permit(s). The estimated construction cost for this project is approximately \$15,000,000. This project is anticipated to be undertaken with 100 percent State funds.

Please register for the virtual public information meeting at <https://portal.ct.gov/DOTNorwalk102-372>. Registration is required to participate. Once registered, you will receive a confirmation email with a link to access the meeting.
