The virtual public open houses will be held to engage the community in discussion of and gather feedback about active transportation in their local area and statewide. Attendees will gain a sense of the purpose of the future Active Transportation Plan and provide critical input that will help shape and guide the plan as it moves through its creation process.

The purpose of the Active Transportation Plan is to evaluate existing conditions, identify active transportation needs of state-owned roadways, and propose recommendations for a functional, and safety-focused active transportation network and supportive programs and policies.

The project is comprised of three phases. The third phase will continue throughout the spring and summer of 2026 with the publication of the state's Active Transportation Plan. Public outreach has been and will be conducted at all three phases to engage communities across the state and gather feedback to inform the final plan. Phases one and two concluded in 2025.

Members of the public can submit comments and questions throughout the span of the project. Please submit comments and questions to [DOT.ActiveTransportationPlan@ct.gov](mailto:DOT.ActiveTransportationPlan@ct.gov) or (860) 594-2020. Please reference Project No. 0175-1618PL in the email or voicemail.
