The purpose of this meeting is to provide the community with an opportunity to learn about the proposed project and allow an open discussion of any views and comments concerning the proposed improvements. A Q&A session will immediately follow the presentation.

The purpose of this project is to improve safety and reduce congestion along Route 614 at its intersections with the I-95 northbound and southbound ramps and Sandy Hollow Road by installing three modern roundabouts along Route 614.

Right of way impacts are anticipated around the intersection of Route 614 with Sandy Hollow Road.

Construction is anticipated to begin spring 2029, subject to the availability of funding, acquisition of right(s)-of-way, and approval of permit(s). The estimated construction cost for this project is approximately $16 million. This project is anticipated to be undertaken with 80% federal funds and 20% state funds.

The public can submit comments and questions during the two-week public comment period following the meeting. Please submit direct comments and questions by December 24, 2026, to Joseph D. Arsenault, P.E., Project Manager at DOTProject0058-0341@ct.gov or 860-594-2020. Please reference Project No. 0058-0341 in the email or voicemail.
