COMMENTS OR CONCERNS OF ANY PERSON PRESENT TODAY

- Chairman Barrieau approached the Board about the application review working group.
 - The Chairman is concerned about state employees being exempt from specific licensing requirements including the apprenticeship program requirements.
 - The Chairman would like these specific applications to still come before the Board for review, regardless of if they are initially approved in the application review working group.
 - Chairman Barrieau is also proposing that the application review working group be dissolved and all applications go before the Board for review.
 - Board Member Higgins made a motion to approve that the Chairman approach the Commissioner of DCP in the MOU meeting to discuss having all applications go before the Board for review and potentially dissolving the Application Review Working Group as it stands today. Board Member Champlin seconded the motion.
 - Discussion: DCP's Paul Grabowski explained how the application review working group is part of the MOU agreement. He also mentioned that dissolving the working group may be a larger project. He recommended that the Board try to have a conversation with John Mesner and Todd Berch (DCP and DOL contacts on the working group) regarding the details of their agreement.
 - The motion passed unanimously.
- Chairman Barrieau provided an update on the Well Drilling Working Group.
- Board Member Foster announced that the CETP modules are being updated, but Board Member Foster is working with them to ensure that the new modules still include the required coursework for licensure. He also announced that they will be in attendance at the October meeting.

ADJOURNMENT

Chairman Barrieau adjourned the meeting at 10:40 am.

Respectfully submitted,
Rachelle Hyburg
Board Coordinator
